

# **Proposed Raven Coal mine in the Comox Valley**

**The Environmental Assessment Office (EAO)**

## **Raven Underground Coal Project**

### **Disclosure and Use of Personal Information for Submissions**

Comments submitted to the EAO, either online, by mail or by fax, will be published on the [Project Information Centre](#).

The Environmental Assessment Office (EAO) publishes all comments received within seven days of receipt, except comments that EAO deems to be inappropriate for publication. Comments may be considered inappropriate for publication if, in EAO's view, they are profane, abusive or do not relate to the matter being consulted upon as stated in our [Public Comment Policy](#). The EAO forwards all posted comments to project proponents so that they can be duly considered through the environmental assessment process.

Although the EAO requires that you provide your name and city/town when making a submission, having your name displayed with your comment is optional.

[EAO Project page](#) You can read submissions from the public here.

The link below expresses an important approach to projects which may not be close to us.
